- Data Management

Soft Skills

- Communication
- Critical Thinking
- Time Management
- Team Collaboration
- Adaptability

RELEVANT EXPERIENCE

Xentra InfoTech Solutions, Inc. - Back-End Developer Intern

Januray 2026 - April 2026

- Assisted in API development and integration
- Managed databases and handled backend data operations
- Worked with API handling, testing, and debugging processes

TESDA - Computer Systems Servicing Graduate / NC Holder

2023 - 2028

- Completed competency requirements under the Philippine TVET Competency Assessment and Certification System
- Earned TESDA National Certification in Computer Systems Servicing
- Developed foundational skills in computer hardware, troubleshooting, networking, and system maintenance

Student Researcher

2020 - 2024

RFID Scanning System

- Assisted in developing an RFID-based scanning and monitoring system
- Worked on data management and security implementation

Infrared-Based Rescue Robot

- Participated in electronics and robotics research project
- Contributed to sensor integration and system functionality testing

Web & Software Development Projects

2022 - 2026

E-Commerce Website

- Designed and developed an online shopping platform
- Implemented responsive UI/UX design principles

Social Media Website

- Built core front-end and back-end social platform features
- Worked with user interface design and database integration

Game Development Projects

- Developed platformer and top-down shooter games
- Designed game assets and gameplay systems

Web Development Projects

- Designed and developed an AI-powered image generation web application
- Developed a real-time weather tracking application using weather APIs
- Designed and developed a personal portfolio website to showcase projects and skills

Content Creation Projects

2022 - Present
